

HTC Shift

Switch off and stay connected

Experience a new era in mobile computing. The HTC Shift.

Where once you traded productivity for portability, now there is no need for compromise. Powerful enough to run Microsoft Windows Vista® on a large touch screen, the HTC Shift delivers functional clout in a sleek, lightweight design.

With the optimum blend of portability and functionality, HTC SnapVUE™ provides instant and easy access to critical information, such as your emails, calendar, SMS and contacts – even if the device is not switched on. There's now no need to power up just to check your emails.

High-speed, always-on connectivity provides the ultimate in productivity and highest fidelity experience, no matter where you are.

The expansive 7-inch touch sensitive screen slides and tilts to reveal a full QWERTY keyboard, providing you with an uncompromised PC environment while working on the move.
